Poverty affects our Society

In Singapore, 1 in every 10 families earns less than \$1,500 a month

This will meet basic needs such as food, clothing and shelter. However, with the cost of transport, education and healthcare added

It's a struggle to make ends meet

Poverty impacts our Children & Youths

Income affects academic outcomes. Surveys of Primary 5 & 6 students from low-income households show 67% failed English and 71% failed Math.

Poverty brings stress, frustration and hopelessness to families. It also has spillover effects in neighbourhoods.

Income affects behavior. Data shows most youth offenders in Singapore come from low-income households.

Many of these families live in 1 or 2 room flats in the 258 public rental housing blocks across Singapore. We estimate around 50,000 children and youths live in these neighbourhoods. Without additional support and opportunities, many children and youth have little hope of escaping their circumstances.

These are the families Beyond reaches out to.

Change is Possible

Children are our future but it is easy to lose sight of this when a child misbehaves. With adequate and appropriate support, disadvantaged young people can make good; because every child has gifts and talents that can be nurtured. At Beyond, we believe a positive future is never beyond anyone.

We can only do this work with your help and generosity.

Please support us.

We need \$3.7million annually to work with 5,500 young people, 3,670 caregivers and to mobilise our 5,000 volunteers.

Every dollar counts, it goes towards keeping young lives on track.

Beyond is currently operating in 5 public rental housing areas reaching almost 9,000 households and facilitating mutual help and a strong community spirit among residents

Through our work we reach 5,500 young people aged 20 & below

82% of families Beyond works with have a household income of less than \$1,500

Who Are We

Beyond Social Services is a charity dedicated to helping children and youths from less privileged backgrounds break away from the poverty cycle. We provide guidance, care and resources that enable families and communities to keep their young people in school and out of trouble.

Our Vision

Beyond's vision is that by 2025, every child and youth in Singapore, despite a disadvantaged background has the opportunity to refuse a lifestyle of delinquency and welfare dependency.
